- Taste award-winning wines with visits to local vineyards, winery tours, wine bars, pubs, and private wine tastings. Certain regions will alternately feature locally-made spirits like sake, scotch, tequila and rum.
- Discover local artisanal products (cheeses, pastries, olive oil, honey, spices, coffee . . .) while shopping at open-air markets and historic mercados.

A Cultural Tour

- Explore art museums, historical landmarks, UNESCO world heritage sites, and architectural monuments with guided tours from Ryan & Ryan (artists/educators/art historians) as well as local guides and experts.
- Experience live folk music, dance, theatre, opera, classical concerts, street performances and cultural festivals.
- Learn about artists *not* found in textbooks, with our focus on regionally and nationally-celebrated artists, art galleries featuring contemporary local artists, and fascinating historical figures who now deserve to be recognized.

An Eco-Friendly Tour

- Marvel at the natural wonders and breathtaking landscapes of some of the world's most beautiful places.
- Embrace the unique terroir of each region! Our tours directly support the livelihoods of biodynamic winemakers, heirloom farmers, organic markets, farm-to-table restaurants, and an entire network of growers, artisans and chefs seeking to preserve the ancestral foodways that are threatened by climate change, globalization and corporate farming.

- Help save wildlife! Many of our new tours now include visits to nature preserves dedicated to saving critically endangered animals like elephants, lions, leopards, giraffes, rhinoceros, sea turtles, humpback whales and penguins. This may be your last chance to see these beautiful animals in the wild, and your tourist dollars will *directly* contribute to the conservation and protection of these species.

A Relaxing Tour

- Deluxe Accommodations. All of our villas, chateaus, apartments and guesthouses are carefully chosen with our extremely high standards of quality, comfort and convenience.
- Worry-Free Transportation. Let us take care of the driving. Whether it's by car or by train, by taxi or ferry or private sailboat, you won't ever have to drive. So sit back and enjoy that second cocktail or that third (or fourth) glass of wine!
- Do you like to go swimming at some of the most pristine beaches in the world? Or do you prefer an afternoon of people-watching at a packed café in a public square? Or sitting by the pool with a cold drink and a good book? Whether you like shopping or bird-watching, sailing or hiking, scuba-diving or nightclubbing, or just simply *chilling* in the villa – we want you to relax and have a good time. These tours are made to be customized around your interests and your pace, so we are happy to arrange whatever activities and/or down-time you desire.

A Customized Tour

- When and where and who? That's completely up to you! You tell us when you want to travel and the preferred length of your vacation. Then tell us who you're traveling with (preferably 2-8 people, though accommodations can be made for larger groups and solo travelers). We do the rest!
- Then what? We'll then conduct a private consultation with you and your party to determine exactly what you want to do. We already have ideas for each of our destinations, but the ultimate choice of accommodations, activities, and pace of the vacation will be customized based on your preferences. We'll then build you a brochure and itinerary that can later be adjusted as you wish.
- How much? Whether you're traveling on a budget or looking for a first-class luxury vacation, tell us what you want to do and we'll get back to you with a competitive quote! Regardless of your party's size or budget, we want you to travel with us and we want to make it work! We'll work with your budget, your schedule, and your needs!
